

**DULUX**  
**FUNGICIDAL WASH**

**A980-19260 (WATERBORNE)**

**PRODUCT INFORMATION**

PRODUCT NAME	<b>Dulux</b> Fungicidal Wash
PRODUCT CODE	A980-19260
DESCRIPTION	<b>Dulux</b> Fungicidal Wash is an aqueous chemical wash, which is low in odour, non-staining, and completely biodegradable.
USAGE	Suitable for both interior and exterior surfaces. <b>Dulux</b> Fungicidal Wash is ready for use.
BENEFITS	Kills fungus and algae growth on both interior and exterior surface, without affecting the adhesion and colour of subsequent paint coats.
PACK SIZE	5 litres only
COLOUR RANGE	Clear amber liquid.

**PERFORMANCE GUIDE**

THEORETICAL COVERAGE	A guide to the theoretical coverage which can be achieved under normal conditions is 10 - 12m <sup>2</sup> / litre of material, but this is very dependent on the absorbency of the surface.
----------------------	--

**PRODUCT DATA**

COMPOSITION (nominal)	Active Ingredients : Mixture of Arylmethanol and Halogen : Alkylacylamino Methanol.
VOLUME SOLIDS	Solvent : Water. 10% (nominal).

**APPLICATION**

DRYING TIMES	2 - 4 hours. Leave on the surface for 24 hours then rinse with clean water to remove dead growth/residues.
CLEANING UP	Clean all equipment with clean water immediately after use.
	 <p>Application method      2-4 hours drying time      Practise proper cleaning</p>

**PRE - APPLICATION**

SURFACE PREPARATION	Remove any mould, algae, lichen, moss by scraping and brushing. <b>Dulux</b> Fungicidal Wash will only be effective on surface growths. Where old growths have been trapped between coats during previous re-decoration, all existing coatings will need to be removed in order to treat the surface effectively.
SYSTEM INFORMATION	Mix thoroughly by shaking the container. Apply the solution by brush only to all affected areas. Leave for 24 hours and then thoroughly rinse and scrub with clean water to remove residues and dead growth. Repeat the process if necessary. On badly affected areas or where lichen is present the use of high-pressure water hosing may be necessary to remove all organic growth completely. <b>Do not</b> use Hypochlorite Wash before or after <b>Dulux</b> Fungicidal Wash as it oxidizes the active ingredient and makes it ineffective. If Hypochlorite Wash has been used, the surface must be thoroughly washed down with clean water before using <b>Dulux</b> Fungicidal Wash. Do not apply in wet weather.

Brush off

### PRECAUTION

#### SAFETY, HEALTHY AND ENVIRONMENTAL INFORMATION

In case of contact with eyes, rinse immediately with plenty of water and seek medical advice  
To remove splashes of paint from skin, use soap and water or a recognised cleanser.  
Keep away from food, drinks, animal feed and out of the reach of children.  
Container must be stored in a cool and shaded place  
It must be tightly closed in a secure, upright position  
Work in a well-ventilated area and do not breathe in vapour or spray  
A suitable mask should be worn during sanding  
When applying paint, it is advisable to wear eye protection.  
In case of a spillage, contain and collect spillage using sand or earth and do not empty into water courses, drains or the environment  
Dispose of any paint waste in accordance with the appropriate Environmental Quality Regulations  
Avoid release to the environment  
Refer to **Dulux** Product Safety Data Sheet for further details  
In case of emergency, refer to Emergency Incident Response Hotline 1800 80 6187.
